York Way Estate: Concrete Pouring Outside Penfields House

Dear Residents,

We would like to inform you about upcoming construction activity outside Penfields House, situated close to Wates' management office. A concrete pump is due to be installed in preparation for concrete pouring scheduled for Thursday 4 and Friday 5 April.

To ensure the safety of residents, access to the north entrances of Penfields House at podium and basement car park level will be controlled - although both will remain accessible. We recommend residents utilise the south entrance whenever possible.

These works are scheduled to take place between 8am and 4pm on both days, during which controlled access arrangements will be enforced. During these works, there will be no disruption to the car park, including the movement of vehicles entering and exiting. Residents with west facing windows are advised to keep them closed during the works, to minimise disruption.

We apologise for any inconvenience this may cause. If you have any questions or concerns, please feel free to contact me via email or phone, using the details provided below.

Kind regards,

Ruzi Bibi
Resident Liaison Officer
